2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The Tulare Joint Union High School District held a public hearing on September 19, 2024 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, and science lab equipment pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are required to be given their own individual textbooks and/or instructional materials (in core subjects), for use in the classroom and to take home if necessary. Additionally, all textbooks and instructional materials used within the district must be aligned with the California State Content Standards and Frameworks, with final approval by the Board of Education. The table displays information collected in September, 2024 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

Situated on approximately 23 acres, Tulare Union High was originally constructed in the 1930s and has been thoroughly modernized over the past several decades. The most recent addition to the campus was a two story building that was built in 2020 and serves as the main entrance to the school and houses the Nurses Office, the Attendance Office, the Assistance Principal's Offices, the Career Center, our on-campus Police Officer, 4 classrooms and 5 Science labs/classrooms.

Tulare Union High School is currently comprised of 71 classrooms, five portable classrooms, a community special day classroom, a library, four computer labs, a career center, a cafeteria, an auditorium, two multipurpose rooms, two gymnasiums, a swim complex, eight tennis courts, the Bob Mathias stadium, a student store, administrative offices, and athletic fields.

The chart displays the results of the most recent school facilities inspection. Specific findings of the most recent inspection are available in the main office upon request.

Cleaning Process

Tulare Union High School provides a safe and clean environment for students, staff, and volunteers. The district governing board has adopted cleaning standards for all schools in the district. Basic cleaning operations are performed on a daily basis throughout the school year with emphasis on classrooms and restrooms. A joint effort between students and staff helps keep the campus clean and litter-free. The principal works daily with the custodial staff to develop sanitation schedules that ensure a clean, safe, and functional learning environment.

Maintenance & Repair

A scheduled maintenance program is administered by Tulare Union High School's custodial staff on a regular basis, with heavy maintenance functions occurring during vacation periods. Additionally, a scheduled maintenance program is administered by Tulare Joint Union High School District to ensure that school grounds and facilities remain in excellent repair. A work order process is used when issues arise that require immediate attention. Emergency repairs are given the highest priority; repair requests are completed efficiently and in the order in which they are received. At the time of publication, 100% of the school's restrooms were in working order.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 Career Technical Education Programs

Our mission is to empower all students to graduate with college, career, and life-readiness skills. The school addresses the needs of all students including career preparation through student CTE programs, Teacher professional development, industry collaboration, as well as student guidance and counseling from school personnel regarding career paths and courses of study. Job fairs, work experience and work-based learning activities, career internships, use of technology, hands-on projects, and community service projects are made available to heighten student awareness and provide relevant experience to foster success in education, training, and employment beyond high school. The following is a list of student programs and course sequences offered by the district. All program courses are aligned with the California (CTE) Career Technical Education Curriculum Standards.

The CTE District Advisory Partners play an important role ensuring that CTE programs are effective, relevant, and aligned with industry standards and needs. They assist with preparing our students to be college and career ready, bridging school education and the workforce by bringing industry expertise, resources, and connections. They ensure students receive relevant, high-quality training. These partners are representatives from our local businesses, industries, higher education, and community organizations. Their involvement ensures that CTE programs meet both the current and future demands of the job market. Below are some key roles and responsibilities of CTE Advisory Partners:

Curriculum Development and Evaluation
Workforce Trends and Labor Market Information
Work-Based Learning Opportunities such as job-shadowing, internships, etc.
Industry Certifications
Program Evaluation and Improvement
Networking and Community Engagement

2023-24 Career Technical Education Programs

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents and the community are very supportive of the educational program at Tulare Union High School. Numerous programs and activities are enriched by parent volunteers and the generous contributions made by the following organizations: Red & Gold Parent Booster Club, School Advisory, Band Boosters, Athletic Boosters, and our School Site Council.

Contact Information

Parents who wish to participate in the school's leadership teams, committees, activities, or become a volunteer may contact the main office at (559) 686-4761. The district's website (www.tulare.k12.ca.us) also provides a variety of helpful resources and information for parents, students, staff, and community members.

2024-25 School Safety Plan

Safety of students and staff is a primary concern of Tulare Union High School. All guests to the campus must check in and enter through the front office where they receive a visitor's badge that must be worn at all times. Supervision is provided to ensure the safety of each student before school, during breaks, at lunch, and after school. Supervision is a responsibility

2024-25 School Safety Plan

shared among teachers, school administrators, and campus security staff.

To safeguard the well-being of students and staff, a comprehensive School Site Safety Plan has been developed, with updates occurring every spring. Any revisions made to the plan are reviewed immediately with the staff. Key elements of the Safety Plan focus on the following: disaster response procedures, child abuse reporting procedures, suspension and expulsion policy, sexual harassment policy, teacher notification of dangerous pupils procedures, and safe ingress and egress of pupils, parents, and school employees.

The school is in compliance with the laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. Safety drills, including fire, earthquake and intruder drills, are held on a rotating basis.

Professional Development

Student Achievement Data is monitored regularly by the District and sites. Based on the data we have a number of areas that have been the focus of professional development. We continue to refine the PLC process and focus on aligning curriculum, grading, instructional practices, and interventions. In addition, ensuring appropriate supports for our Emerging Bilinguals, Special Education, and other minority student groups is in the forefront of our professional development activities.

Professional Development activities are provided to staff at the beginning of the school year. There are several online trainings

Professional Development

that staff must complete that are mandatory training activities. There are also in-person professional development activities that are provided, based on feedback from both teachers and administrators. These activities are centered on supporting classroom instruction, student behavior, and other supports needed.

The math program has changed their curriculum in Algebra 1, Geometry, and Algebra 2 therefore there has been extensive professional development in the new curriculum and the strategies to be utilized with this new curriculum. The District provides Instructional Coaches in the areas of math and ELD.

The district has contracted with Solution Tree to provide training and support to our PLCs as they continue to focus on the hard work of Collaborative Teams. The District continues to provide professional development to the core departments providing support in their process of aligning curriculum with the California Common Core State Standards, instructional strategies, and intervention practices. Instructional Technology is another highly supported area. A majority of the professional development activities are conducted during the school day with teachers being provided substitutes so they can attend the PD sessions required by the District. There are also opportunities to teachers to participate or request individual support from the coaches or access to workshops, seminars and conferences.

Additionally, staff are trained in Youth Mental Health training, CPI (Crisis Prevention Institute) training, PBIS (positive behavior interventions) and much more.

This table displays the number of school days dedicated to staff development and continuous improvement.
